THE Duke of Savoy having notified to their Majesties the Death of his Son the Duke de Chablais, lately born to him, the Court is gone into Mourning. Six days ago the King receiv'd a Courier from the Court of France, with the most Christian King's Approbation of his Majesty's design to take the Field, and the following Day his Majesty acquainted the Councils and Tribunals that he had fix'd his Departure to the 20th of this Month. The Secretary of War Don Joseph Grimaldo will accompany his Majesty, with 2 under Secretaries; and the Marquis de Mejorada is to stay here and have the Direction of the Offices of the Secretaries of State and War; and is to dispatch the Orders issued by the Queen, who during the King's Absence is to have the Management of the Government assisted by the Cabinet Council. M. Amelot, Ambassador of France, is to stay at Court with the Queen, notwithstanding he had caus'd his Equipage to be got ready for accompanying the King into the Field. Some Detachments of the Spanish and Walloon Guards that were left here, will march with the King. A Squadron of French Men of War that came to Alicant, having landed there 6 pieces of Cannon and 2 Mortars, with great store of Ammunition, is sail'd from thence towards the Coast of Catalonia. A Discovery has been made of a new Conspiracy in Granada, and the Persons concern'd in it are imprison'd. The Viceroy of Arragon has, with the Consent of the Inquisitors, converted the House of the Inquisition at Saragossa into a Castle, furnish'd it with 40 pieces of Cannon, and garrison'd it with a Regiment of French Foot, having been assisted in this Work by the Inquisitors and the Nobility. The Count d'Aguilar is gone with Major General Monroi to take a Review of the Troops in Estramadura, whence he will go to Castile to do the like. Last Night Carriages were sent from hence for Cadix, whither the Governours for the Indies repair, to embark on the Flota and Galleons, which 'tis advis'd from Cadix are hawl'd out of the Puntals into the Bay. The Marquis de Preux is gone to Cadix to command next under the Governour. Baron Winterfeld is out of Danger of the Wounds he receiv'd at Villareal, but the Sieur de Ribanegra Sub-Lieutenant of the Walloon Guards is dead.

M. du Quene who sail'd from this Port 2 Months ago with 8 Men of War, return'd to the Islands Hieres the 3d Instant. M. de Bellefontaine who went out to seek him to command his Squadron in his stead, found him at those Islands, whither the Winds

He was hindred by bad Weather from entering the Bay of Roses. He saw no Enemy, and was driven about all the while he was out by Storms. From the Paris Letter, dated Feb. 26.

Paris, Feb. 26. The brisk Answer of the Abbot de Pomponne, Ambassador of France, to the Complaint made by the Republick of Venice on Account of the taking away of some Corn by the French from Piacenza near Rovigo, is very much applauded here. It was, 'That he was extremely surpriz'd at those Complaints, because that Corn belonging to the Imperialists the Republick were in the Wrong to take Notice of it; That however they shew'd by that a Partiality that did not suit with the Neutrality they had so loudly declar'd for, and which their Ministers at the Courts of Vienna and France had so frequently protested they would observe. And that they might depend upon it the French would sieze all the Corn they should discover belong'd to his Majesty's Enemies. 'Tis not known yet what Resolution the Republick have taken upon this Answer.

The Count de Toulouze pass'd through Lions the 17th of last Month, without stopping, and embark'd on the Rhone with all Diligence, to go to Toulon.

From the Amsterdam Courant, dated March 6.

Paris, March 1. The Count de Toulouze is not put to Sea from Toulon; and 'tis said the Fleet is not ready yet. They write from Bayonne that Recruits arrive there daily, and are sent 3 or 400 together into Spain; and that the last of them were expected by the 26th of February. The Duke de la Feuillade is expected at Court. 'Tis now talk'd, as a thing certain that the Governours of the Provinces will be commanded to raise a Regiment each; and that those Regiments will be kept up in Time of Peace as well as War, at the Charge of the respective Provinces. 'Tis also talk'd that every Marshal of France is to raise a Regiment.

From the Leiden Gazette, dated March 4.

Letters from Mons, dated the 24th of last Month, inform us, that the French had enjoy'd the Inhabitants of that Town and its Dependancies to make use of grey Salt, and forbid them to use white Salt; that the said Inhabitants having mutined upon it, 800 Soldiers were sent into the Town to live there at Discretion; that the Archbishop of Cambray had sent to Court to desire the King of France to order those Soldiers to withdraw out of the Town; but that it was believ'd no Regard would be had to his Instances; and that on the contrary it was not doubred the French would introduce the Use of Grey Salt into all the Towns of the French Flanders.

Hague, March 5. M. Fagel being nominated by the States to serve the ensuing Campaign in Quality of

of Lieutenant General, has presented a new Memorial to them, in which he desires to be advanc'd to a higher Post. He represents, that having serv'd in Portugal as Field-Marshal, he expects (that he may serve with honour) to be made a General of Foot. The Earl of Albemarle, who is a Lieutenant General of a longer standing than he, opposes his Promotion strongly, unless he be likewise made General of Horse. M. Slangenbourg being left out of the said Nomination of General Officers, is gone to his Country Seat in Gelderland. Since the Nomination aforesaid, the States have order'd all their General Officers and others to be in a readiness to march upon the first Notice, that the Enemy may not be beforehand with us. 'Tis reported as certain, that the Duke of Marlborough will come over hither within 3 Weeks; to regulate in good Time all things necessary for opening the Campaign.
